How To Repair a Ball Mark

A few extra seconds is all it takes to keep the putting greens looking and playing their best.

USGA

- CHOOSE WISELY**
A ball mark repair tool is recommended, but other pointed devices can be used.
- PUSH DON'T PRY**
Starting from the back and sides, gently push & stretch the turf to the center of the mark.
- WORK AROUND**
Work around the ball mark until it's filled in. Avoid lifting & twisting the turf harshly.
- FINAL TOUCH**
Use your putter to lightly tap down the mark. Fix other marks in addition to yours.

Our new greens are starting to soften up, and I have noticed several ball marks left without repair. As you know, all of us must do our part to keep our greens healthy.

Would you please follow the procedure pictured above? If everyone uses the proper technique for repairing their ball marks, we will all benefit from playing the best greens possible.

Great greens enhance great golf!

Thank you, and enjoy your golf game.
